Report Type: Site Reassessment #001

Decision Date: 05/19/2016

- | |
|--|
| <input checked="" type="checkbox"/> 1. Further Remedial Site Assessment Under CERCLA (Superfund) is not required because:
NFRAP-Site does not qualify for the NPL based on existing information |
| <input type="checkbox"/> 2. Further Assessment Needed Under CERCLA. |
| <input type="checkbox"/> 3. Remedial study/cleanup needed. |

Decision/Rationale:

The U.S. Environmental Protection Agency (EPA) has determined that no further remedial action by the Federal Superfund program is warranted at the referenced site, at this time. The basis for the no further remedial action planned (NFRAP) determination is provided below. A NFRAP designation means that no additional remedial steps under the Federal Superfund program will be taken at the site unless new information warranting further Superfund consideration or conditions not previously known to EPA regarding the site are disclosed. In accordance with EPA's decision regarding the tracking of NFRAP sites, the referenced site may be removed from EPA's Active site inventory and placed in a separate Archive site inventory as an historical record if no further Superfund interest is warranted. Archived sites may be returned to the Active site inventory if new information necessitating further Superfund consideration is discovered.

Site successfully completed state voluntary clean-up program. NFR letter issued Sept. 2, 2009.

Decision/Rationale (Continued):

Site Decision Made By: David Brauner, U.S. EPA Acting NPL Coordinator
